Upper Ridge Road over Unami Creek Bridge Replacement Project State Route 4033, Section UCB

Plans Display: February 17, 2015 through March 3, 2015

The public plans display for the replacement of the Upper Ridge Road bridge over Unami Creek in Milford Township, Bucks County, is being held to provide citizens with an opportunity to learn more about this proposed transportation improvement plan. The information being presented provides an overview of the project while specific details are developed. PennDOT requests that you complete a questionnaire as your input is of value and will assist the project team during the engineering design phase.

PROJECT DESCRIPTION

The proposed project involves removing and replacing the existing bridge on Upper Ridge Road over Unami Creek. The new bridge will be constructed along the existing roadway alignment.

During construction, through traffic on Upper Ridge Road (State Route 4033) will be detoured over Swamp Creek Road (State Route 1030), Whites Mill Road (State Route 1023), Ridge Road (State Route 0563) and Allentown Road (State Route 1001/State Route 4027). Driveway access within the limits of work will be maintained to all residences.

Permanent right-of-way acquisition is necessary due to a minor realignment of the roadway.

Please feel free to complete a questionnaire. If you have any questions or need additional information on this transportation improvement project, please contact Brian D. Rasiul, P.E., Pennoni Associates, Inc., at 610-422-2378.
